Discussion

4. Members of the public asked questions about the unannounced changes in design and budget. The Council representatives explained that although changes had been in discussion, following discussion with Planning, the skater area and the main recreation features were retained in the final design. This was now under construction. The meeting concluded in broad agreement that concerns expressed earlier had been dealt with satisfactorily.

Conclusion

5. The Chair thanked Messrs McGhie and Almand for their helpful explanation which had given considerable reassurance to the community.
6. The meeting closed at 7.15 pm.
